Initiative **PRO**  
Massivholz

The family business founded in 1922 in Westenholtz in East Westphalia and now in its third generation manufactures high-quality solid wood furniture for your home.

Our lasting and passionate furniture tradition is our obligation. That is why only robust, high-grade materials are employed, which we process in true craftsmanlike fashion with the aid of modern industrial technology at our disposal.

Besides modern technology, our craftsmen also play a key role. Our fully trained and highly motivated personnel make an essential contribution to the manufacture of our furniture.

As a solid wood specialist and a member of the "Initiative for Solid Wood" we manufacture every unit of furniture individually. The result is an unmistakable single product that is unique in its quality and design.

The award of the "Golden M" label by the German Furniture Quality Association again underlines our own statement of quality.

For only furniture that is safe, durable and free of any harmful substances is granted the RAL seal (see [www.dgm-moebel.de](http://www.dgm-moebel.de)). This quality feature is confirmed by ongoing tests carried out by neutral institutes.

Another main focus of the company is the unproblematic production of custom-sized units. These made-to-measure products specially commissioned by the customer are part of our daily business. For almost anything is possible with solid wood.

It is our aim to fulfil your very own furnishing dreams.

## DGM EMISSIONS LABEL

The collections/models marked with the Emissions Label fulfil the requirements of the Emissions Label of the German Furniture Quality Association in the corresponding category.

## OUR COMMITMENT - TO NATURE !

Quality, trust and safety are close to our heart from the outset.

### Wood is a renewable raw material

Ecological arguments also favour solid wood furniture. Wood is a renewable raw material from forests where sustainable reforestry is practised and can be 100% recycled.

We – and our suppliers – take care to ensure that our solid wood furniture is also manufactured using environmentally-friendly procedures and causing as few harmful substances as possible. Solid wood has a very long life span in comparison with other raw materials, because wood is a very high-quality material that can age in a dignified way with very little product care needed. That in itself is also sustainability!

### A uniquely pleasant feel and long-lasting value

Furniture made from solid wood is much loved for many reasons. With its most natural smell, its quite unmistakable and individual grain, its authentic colouring and its uniquely pleasant feel it sets itself apart from furniture made from other materials. Solid wood furniture also provides particularly long-lasting value and is often handed down from generation to generation because of its timelessness and its beauty, which even tends to increase with age as a result of the patina it develops.

### Endearing companions and friends for life

A healthy climate in the room and an accompanying feeling of wellbeing for all occupants, thanks to the "active-breathing" and lively wood, are further arguments for purchasing solid wood furniture that are frequently put forward. Solid wood units regulate the humidity of the air in the room, radiating warmth and a feeling of cosiness, bringing life and a touch of class into every room. They are your endearing companions and friends all the way through your life.

# MATERIAL, SYSTEM AND QUALITY

## Finishes:

■ Walnut

### Wardrobe:

Inner wardrobe cabinet: **Solid wood grey-brown**  
Fronts and outsides: **Solid wood walnut**

■ Mirror: Bronzed

■ Color glass: Anthracite

■ Handles: Aluminium anthracite lacquer

## Surface

Our materials are selected for surface treatment according to the type of wood and its natural characteristics.  
Each meets the DIN EN 71-3 standard on "Safety of Toys" and

DIN 53160 standard on "Insensitivity to Saliva and Perspiration".  
Only technically high-quality and environmentally friendly hydro or PUR surface lacquer systems are used.

## Brackets

- Automatic quick-assembly hinge, full metal.
- Door hinge always with soft-closing.
- Drawers with automatic soft-closing.
- Wardrobes with trapezoid connecting brackets.
- Easy disassembly of carcass units with Rastex-mini-excentric brackets.

- All brackets are easy to assemble and move home with.
- Bed bracket adjustable to 4 height levels.
- The mounting materials supplied (plugs, screws) are only suitable for solid walls.

## Maximum loads

- Fitted shelves max. 20 kg
- Clothes rods max. 20 kg
- Drawers max. 25 kg
- Hanging units max. 25 kg

## Fabric composition

- **Fabric (white, khaki, grey-brown)**  
Composition: 100% pure sheep's wool  
Friction resistance: 30,000 cycles  
Light fastness: 6

- **Man-made leather (white, khaki, anthracite)**  
Surface layer: 100% polyurethane  
Base material: 60% polyester and 40% cotton,  
Friction resistance: > 100,000 cycles  
Light fastness: > 5

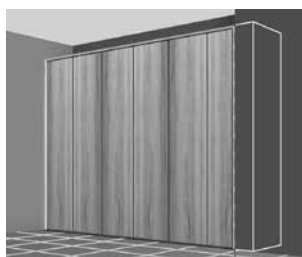

- **Loden (natural, grey-brown, anthracite)**  
Composition: 100% pure sheep's wool  
Friction resistance: 30,000 cycles  
Light fastness: 6

- **Loden (white, khaki, anthracite)**  
Composition: 100% leather  
Friction resistance: 30,000 cycles  
Light fastness: 6
