THIELEMEYER
Manufaktur für Schlafräume

Our values

We stand for natural and exclusive bedroom environments in an innovative design.

We use the best that nature has to offer for our products – its uniqueness.

Our values follow a single goal: the level of your satisfaction.

Quality – Made in Germany

Our products have always been manufactured in Germany, in Delbrück-Westenholz in east Westphalia to be exact. Where people, nature and craftsmanship form a perfect entity using the most modern manufacturing technology, the result is a unique quality product.

The environment & responsibility

We love nature! For us this doesn't just mean social and ecological responsibility, it is a part of our company philosophy and a quality feature of our furniture. It goes without saying that our environmentally compatible wood comes from regions where sustainable forestry is practised.

Wood & nature

Our raw material is solid wood. With its wide colour spectrum and natural appearance it creates a unique feeling in every room. The material is so versatile in processing and at the same time every unit of furniture manufactured is truly unique.

Individuality & Design

We produce excellent design, made-to-measure. Besides the natural material, it is our precise manufacturing techniques, the know-how of our staff and the careful procedures which create individual masterpieces out of the various components.

Tradition & Craftsmanship

We have stood for progress together with tradition ever since 1922. We have grown from a small carpentry shop with its origin in traditional craftsmanship into a modern furniture manufacturer. Experience and the people factor are our finest assets.
