

Mira

Type list

Solid wood bedroom system:
Structured ash, Natural beech, Wild oak

THIELEMEYER
Manufaktur für Schlafräume

Our Values

We stand for natural and exclusive sleeping environments in an innovative design. We use the best that nature has to offer for our products – its uniqueness. Our values follow a single goal: your complete satisfaction.

Quality – Made in Germany

Our products have always been made in Germany, more specifically in the East-Westphalian region of Delbrück-Westenholz. Where man, nature and craftsmanship come together with state-of-the-art production technology to form the perfect unity and create unique quality products.

Environment & Responsibility

We love nature! For us, it is not just a social and ecological responsibility, but also a part of our company philosophy and a quality feature of our furniture. Naturally, our wood is pollution-free and comes from sustainable, responsible forestry.

Wood & Nature

Our raw material is solid wood. With its wide colour spectrum and naturalness, it creates a unique sense of space. The material is very versatile in its manufacturing possibilities, while at the same time, ensuring each piece is truly unique.

Individuality & Design

We produce excellent design, made to measure. In addition to the natural materials we use, it is our precise level of manufacturing, knowledge of our skilled employees and thorough processes that allows us to create unique masterpieces from the individual parts.

Tradition & Craftsmanship

Since 1922, we continue to stand for progress with tradition. From a small carpenter's workshop originating in traditional hand-craftsmanship, we have grown into a modern furniture manufacturer. Our experience and our human touch are our greatest assets.

The System At a glance

Finishes

- **Solid wood**
Structured ash, natural beech or wild oak
- **Man-made leather**
Dark brown, slate grey, taupe, white
Surface layer: 100% Polyurethane | Backing layer: 60% Polyester, 40 % Cotton
Friction resistance: > 100.000 cycles | Lightfastness: >5
- **Mirror**
Bronzed and crystal glass
- **Colorglas**
Dark brown, slate grey, taupe, white
- **Loden**
Slate grey, natural, grey brown
100% Pure new wool
- **Handles, design feet metal feet and mirror support**
Aluminium lacquer silver (LSI)
Aluminium lacquer brown (LBR)

Wood quality

- Front panels, headboards, footboards, cover plates and passepartout frame: solid wood with continuous slats
- Body units, bed sides, passepartout cornice and cornice profiles: solid wood parquetered
- Continuous grain appearance in front panels

Fittings

- Automatic quick-assembly hinges, full metal
- Door hinges with soft-closing
- Drawers with automatic self-closing
- Wardrobes with metal connecting brackets
- Easy disassembly of body units with Rastex-mini-excentric brackets
- All brackets provide for easy relocation and assembly
- Bed bracket adjustable to 4 height levels
- The mounting materials supplied (plugs, screws) are only suitable for solid masonry walls
- Sliding-door brackets with collision prevention and soft-closing

Custom-made products

Your wish is our command. Even the most demanding custom-made products can be made with precision and in the highest quality. Allowing for maximum flexibility with furniture dimensions and many further details such as adjustments to beds, drawers or bedside tables.

Width reduction

Height reduction

Depth reduction

Side sloping

Rear sloping

Surface

The substances used in the surface treatment of our units are specially selected depending on the type of wood and its natural characteristics. Each individual substance conforms to DIN-EN 71-3 standard "Safety of Children's Toys" and DIN 53160 standard "Resistance to Saliva and Perspiration".

Seal

Our furniture is awarded with the DGM seal of quality – a seal that attests to the highest quality of materials and workmanship; standing for safety, durability and unquestionable substances.

Load Capacity

- Shelves max. 20 kg
- Clothing rods max. 20 kg
- Drawers max. 25 kg
- Hanging units max. 25 kg

Planning

Design your individual solution comfortably with „furnplan“.

Planning Guide / Checklist for Sloping Roof Line

1. Please check if the floor is horizontal, if not, use a spirit level to create horizontal or vertical lines.
2. From the straight line measure all heights. (Specify room dimensions only, not cabinet dimensions)

We require the following dimensions:

- a. Ceiling height
- b. Room width (from wall to wall without skirting board)
- c. Knee wall height
- d. Ceiling length

(please enter these dimensions on the back)

3. If the corner point, where slope begins, is rounded please include more guide lines along the slope and measure the width and height. See diagram to right.
4. Create additional sketch (view of sequence of elements) and send through.
5. **Check all measurements again!**

6. Please always check our order confirmation and the attached drawing and then give us the binding authorisation to proceed.

Further information:

A wardrobe slope to the rear is possible with all cabinets. Clearance of at least 10 cm from the front of the floor must be free for hinged-door wardrobes.

Thielemeyer Hotline

Please get in touch if you require more help.

We are available from Monday till Friday **from 08:00 a.m. till 06:30 p.m.**

Individual specially commissioned units are all part of our daily business. These can be units that have been reduced in width, height or depth or even specially fitted units. Our sales team will be pleased to advise you about the many ways of planning and manufacturing individual solutions for your customers. This tradition of craftsmanship in combination with our "state-of-the-art" production techniques are what make Thielemeyer the people to contact for solving even the trickiest of problems.
