Solid wood bathroom system
Wild oak and structured ash

THIELEMEYER
Manufaktur für Badmöbel

Our Values

We stand for natural and exclusive sleeping environments in an innovative design. We use the best that nature has to offer for our products – its uniqueness. Our values follow a single goal: your complete satisfaction.

Quality - Made in Germany

Our products have always been made in Germany, more specifically in the East-Westphalian region of Delbrück-Westenholz. Where man, nature and craftsmanship come together with state-of-the-art production technology to form the perfect unity and create unique quality products.

Environment & Responsibility

We love nature! For us, it is not just a social and ecological responsibility, but also a part of our company philosophy and a quality feature of our furniture. Naturally, our wood is pollution-free and comes from sustainable, responsible forestry.

Wood & Nature

Our raw material is solid wood. With its wide colour spectrum and naturalness, it creates a unique sense of space. The material is very versatile in its manufacturing possibilities, while at the same time, ensuring each piece is truly unique.

Individuality & Design

We produce excellent design, made to measure. In addition to the natural materials we use, it is our precise level of manufacturing, knowledge of our skilled employees and thorough processes that allows us to create unique masterpieces from the individual parts.

Tradition & Craftsmanship

Since 1922, we continue to stand for progress with tradition. From a small carpenter's workshop originating in traditional hand-craftsmanship, we have grown into a modern furniture manufacturer. Our experience and our human touch are our greatest assets.

Vanity options

- Entirely ceramic
- Entirely mineral stone
- Mineral stone with ceramic basin
- Solid wood with ceramic basin

Out of respect for nature

Our wood comes from sustainable, responsible forestry.

Energy efficiency classes

All installed lighting elements correspond to at least energy efficiency class A+.

Surfaces

The substances used in the surface treatment of our units are specially selected depending on the type of wood and its natural characteristics. Each individual substance conforms to DIN-EN 71-3 standard "Safety of Children's Toys" and DIN 53160 standard "Resistance to Saliva and Perspiration". And for our bathroom furniture, we have had our paint tested for "moisture resistance" by the independent test institute INTERTEK.

Seal

Our furniture has been put through its paces and awarded the seal of approval of the German Quality Association for Furniture (DGM), so that we can guarantee you safety and quality.

The surfaces of our bathroom furniture are treated with a special lacquer that has passed the strict and independent "moisture resistance" test of the INTERTEK Institute.

With the emissions label developed by the DGM e.V., consumers are now even better protected against health effects from pollutant emissions. We only use the best, which is why our entire furniture collection is classified A.

As a founding member of the Pro Solid wood initiative, it is important to us to highlight the special quality and value of solid wood furniture. And also to point out that buying solid wood furniture means living healthier and doing something good for the environment.

The System

At a glance

Wall system for cabinetry

Our cabinetry, mounted using new mounting system made of metal, provides the following benefits:

- Easy and quick mounting on wall.
- Vanity can be easily positioned.
- More freedom of movement for installation.
- Drawers are easy to hang into the cabinetry.

Vanity Care

Ceramic

Protect the surface from hard objects falling on it. This can lead to irreparable fractures and cracks in the surface. Use a commercially available bathroom cleaning agent. In the case of heavy soiling, we recommend the use of cleaning milk such as „Stahlfix classic“.

Mineral Stone

The material is highly dense, providing water and wear resistance as well as good hygiene properties. In addition, it is also heat-resistant and food-safe. A commercially available bathroom cleaning agent can be used for daily cleaning. If heavily soiled, we recommend using cleaning milk such as „Stahlfix classic“.

Humidity in the bathroom

Our bathroom furniture is suitable for a normal indoor climate. We recommend, however, that you ensure adequate ventilation in the bathroom. The briefly increased humidity, through bathing or showering, should be ventilated quickly so that it does not harm the furniture. Moisture residue, splashes of water or condensation should be removed immediately with a dry cloth, as longer exposure times can lead to swelling.

Accessories

- Laundry box
- Inserts for drawers and utensil boxes
- Utensil boxes
- LED Lighting
- Hand towel rail
- Bathtub tray

Custom-made products

Your wish is our command. Even the most demanding custom-made products can be made with precision and in the highest quality. Allowing for maximum flexibility with furniture dimensions and many further details, such as customisation for hanging cabinetry and shelf types.
