Our Values

We stand for natural and exclusive sleeping environments in an innovative design. We use the best that nature has to offer for our products – its uniqueness. Our values follow a single goal: your complete satisfaction.

Quality – Made in Germany

Our products have always been made in Germany, more specifically in the East-Westphalian region of Delbrück-Westenholz. Where man, nature and craftsmanship come together with state-of-the-art production technology to form the perfect unity and create unique quality products

Environment & Responsibility

We love nature! For us, it is not just a social and ecological responsibility, but also a part of our company philosophy and a quality feature of our furniture. Naturally, our wood is pollution-free and comes from sustainable, responsible forestry.

Wood & Nature

Our raw material is solid wood. With its wide colour spectrum and naturalness, it creates a unique sense of space. The material is very versatile in its manufacturing possibilities, while at the same time, ensuring each piece is truly unique.

Individuality & Design

We produce excellent design, made to measure. In addition to the natural materials we use, it is our precise level of manufacturing, knowledge of our skilled employees and thorough processes that allows us to create unique masterpieces from the individual parts.

Tradition & Craftsmanship

Since 1922, we continue to stand for progress with tradition. From a small carpenter's workshop originating in traditional hand-craftsmanship, we have grown into a modern furniture manufacturer. Our experience and our human touch are our greatest assets.
