

# Steel

Living space

## Type list

Living room system, solid brushed wild oak

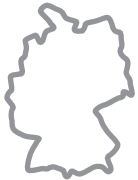

THIELEMEYER

# Our values

We stand for natural and exclusive bedroom environments in an innovative design.

We use the best that nature has to offer for our products – its uniqueness.

Our values follow a single goal: the level of your satisfaction.

## Quality – Made in Germany

Our products have always been manufactured in Germany, in Delbrück-Westenholz in east Westphalia to be exact. Where people, nature and craftsmanship form a perfect entity using the most modern manufacturing technology, the result is a unique quality product.

---

## The environment & responsibility

We love nature! For us this doesn't just mean social and ecological responsibility, it is a part of our company philosophy and a quality feature of our furniture. It goes without saying that our environmentally compatible wood comes from regions where sustainable forestry is practised.

---

## Wood & nature

Our raw material is solid wood. With its wide colour spectrum and natural appearance it creates a unique feeling in every room. The material is so versatile in processing and at the same time every unit of furniture manufactured is truly unique.

---

## Individuality & design

We produce excellent design, made-to-measure. Besides the natural material, it is our precise manufacturing techniques, the know-how of our staff and the careful procedures which create individual masterpieces out of the various components.

---

## Tradition & craftsmanship

We have stood for progress together with tradition ever since 1922. We have grown from a small carpentry shop with its origin in traditional craftsmanship into a modern furniture manufacturer. Experience and the people factor are our finest assets.

# The system

## At a glance

### Explanations

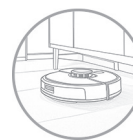

- **Solid wood**  
Brushed wild oak
- **Colored glass (graphite)**  
lacquered / satin-finished glass, matte
- **Handles**  
Aluminum iron mica chests of drawers without handles with push to open
- **Disposal of split wood**
- **Frame**  
Solid wood iron mica

### Wood qualities

- Fronts: Solid wood with continuous lamella
- Body elements:  
Top surfaces are solid wood with continuous lamellas; all other elements are solid wood parquet.

### Fittings

- Automatic quick-mount metal hinges.
- Door hinges always with damping.
- Drawers with full extension.
- Easy disassembly of cabinet elements thanks to Rastex mini eccentric fittings.
- All fittings are easy to move and install.
- The included mounting hardware (anchors, screws) is only suitable for solid masonry.
- Clearance height for robots: 12 cm

### surface

Depending on the type of wood and its natural properties, our materials for surface treatment are selected. These comply with DIN EN 71-3 "Safety of toys" and DIN 53160 "Saliva and perspiration resistance".

### seal

Our products are certified with the DGM seal of approval, a mark that attests to the highest quality of materials and workmanship and stands for safety, durability and harmless ingredients.

### Resilience

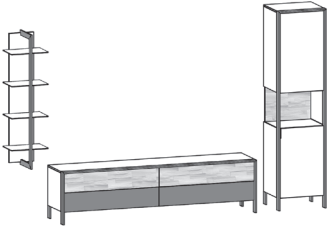

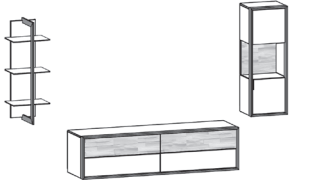

- Shelves max. 20 kg
- Clothes rails max. 20 kg
- Drawers max. 25 kg
- Hanging types max. 25 kg

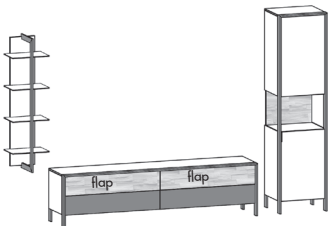

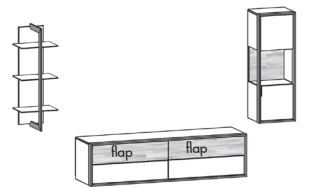

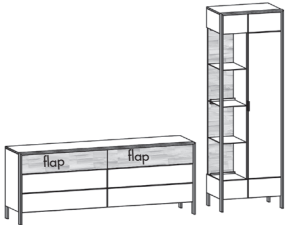

### plan-

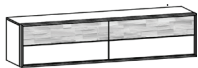

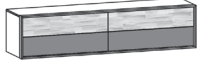

Design your individual solution conveniently with "furnplan".
